Iglič **PARCELLE**
Gorca **CRU**
Haloze **VILLAGE APPELLATION**

VINO GROSS
MARIA & MICHAEL GROSS
ŠTAJERSKA SLOVENIJA

ABV: 13.5%
ACIDITY: 7.77 g/l
RESIDUAL SUGAR: 0.8 g/l
PH VALUE: 3.19
ADDED SULPHUR: 0 mg/l
VINEAGE: 15 — 45 years
TYPE OF CLOSURE: cork
HARVEST DATE: 29.9.2023
BOTTLING DATE: 3.7.2025
BOTTLES PRODUCED: 1,150
REGION: Štajerska Slovenija
VILLAGE APPELLATION: Haloze
CRU: Gorca
PARCELLE: Iglič
FARMING: Biodynamic viticulture

GRAPE VARIETIES: 100% Furmint
(large-lobed leaves; large, loose, late-ripening clusters)
SOIL: calcareous marl (opok)
ALTITUDE: 290 — 350 m above sea level
TERRAIN: high plain and south-facing terraces

SPECIAL FEATURES OF THE TERROIR: The plot Iglič, a parcel of the single vineyard side Gorca, is a high plateau characterized by limy clay marl and south-facing terraces. We planted part of the site with premium-quality Furmint vines and grafted Furmint vines to the remaining old, but very agile Müller-Thurgau vines by hand. The wind that blows over the plateau is beneficial for the Furmint variety as it dries the sensitive grapes quickly.

VINIFICATION: Spontaneous fermentation in large used wooden barrels, twelve months' maturation in barrels, followed by maturation in steel tanks. No finings added, un sulphured, unfiltered.

TASTING NOTES: Clear and elegant with finely interwoven aromas of blossom honey, quince, apple and crystalline citrus fruit. The nose is delicate and complex with hints of oyster water and fresh dough. On the palate, it impresses with its firm, mouth-watering acidity, saltiness and long, refined finish.

FOOD PAIRING: Pairs well with light fish dishes, raw fish, and boldly seasoned foods such as grilled poultry or herb-rich stews.

WORKING WITH NATURAL WINE MEANS ACCEPTING THAT SOME THINGS JUST UNFOLD ON THEIR OWN. IT IS WHAT IT IS. HOWEVER, WE ALSO MAKE VERY DELIBERATE CHOICES. FOR SUSTAINABILITY. FOR COMMUNITY. FOR THE FUTURE. IT SHOWS IN THE WAY WE TRUST IN LIFE. AND SIMPLY LET NATURE BE ITSELF.
